FINMECH v2.0

OFFICIAL USER MANUAL & MASTER GUIDEBOOK

Live Capital Tracking • Zero Drift Architecture • Pocket Isolation

1. THE 3 LIQUID ACCOUNTS (POCKETS)

Finmech isolates your capital into 3 distinct liquid pockets so you never accidentally spend business capital on groceries or wonder why your wallet notes do not match your ledger.

BANK — Bank Account (Digital / UPI / Cards)

- Represents: Money in your checking/savings bank account, GPay, PhonePe, and debit cards.
- When to use: When receiving salary, paying rent/bills via UPI, or making online card orders.
- Quick Deposit: Tap "+ Deposit" directly on the Bank Card on the home dashboard.

CASH — Cash in Hand (Physical Wallet & Coins)

- Represents: Real physical paper notes (Rs 500, 200, 100, 50, 20, 10) and loose coins.
- When to use: When paying for chai, autos, street food, cash tips, or local markets.
- Physical Audit: Open the Cash Tab to count notes and tap "Apply to Wallet".

BIZ — Live Business (Freelance / Side Ventures)

- Represents: Dedicated business treasury for freelancers, creators, and micro-entrepreneurs.
- When to use: For client payments, project invoices, SaaS tools, domains, and server hosting.
- Complete Isolation: Business money is STRICTLY excluded from personal savings & spend charts.

THE CORE FORMULA FOR TRUTH

Personal Net Balance = Bank Account + Cash in Hand

Business funds remain in the commercial division until you execute an Owner Draw to Personal Bank.

2. HOW TO ENTER & MOVE MONEY (QUICK ENTRY)

Tap the "+" button in the center of the bottom navbar to open Quick Entry. Finmech has 3 clear modes:

A. Logging an Expense (Money Out)

1. Select "Expense" at top. Choose Pay From: Bank, Cash, or Business.
2. Type the amount on the numeric keypad (e.g. 240).
3. Pick a category (Food, Transport, Software, Rent) and add an optional note. Tap Done.

B. Logging an Income / Deposit (Money In)

1. Select "Income" at top. Choose Deposit Into: Bank, Cash, or Business.
2. Select Tag: Salary, Client Payment, or Starting Balance / Deposit.
3. Starting balances never distort your monthly spend charts — they cleanly fund your account.

C. Moving Money Between Accounts (Transfers)

- Bank -> Cash: An ATM Withdrawal (draws from bank, puts physical notes in wallet).
- Business -> Bank: An Owner Draw (pays business profit into personal savings).
- Bank -> Business: Seed Capital (funds your venture from personal savings).
- Transfers strictly move capital between accounts with zero artificial income inflation.

3. CALENDAR & DATE-LEVEL SPEND TRACKING

Finmech features a full interactive calendar so you can see exactly when you spent what:

The 7-Column Date Matrix (Overview & Spends tabs)

- Daily Spend Badges: Every day with spending displays an exact pill (e.g. -Rs 250, -Rs 1.2k).
- 1-Click Drill Down: Tap any date to slide open all transactions spent on that exact date.
- Monthly Segregation: Use the top month pills (November, October, All Months) to isolate records.
- Exact Date Search: In Activity Logs, use the native date picker to filter logs to any single day.
- Edit & Delete: Click any transaction anytime to reassign accounts, fix typos, or delete.

4. PHYSICAL CASH WALLET & DENOMINATION AUDIT

Tallying Real Physical Paper Notes

1. Open your physical pocket wallet and count your physical Rs 500, 200, 100, 50, 20, 10 notes.
2. Use the "+" and "-" counters in the Cash Tab to reflect your real notes in hand.
3. Tap "Apply to Wallet": Finmech reconciles your cash balance to match reality with zero drift.
4. Reset to 0: If your wallet is empty, tap "Reset to 0" to instantly zero out note counts.

5. AI SAVINGS COPILOT & LEAK DIAGNOSTICS

Proactive Financial Intelligence (Gemini 2.5 Flash)

- Spending Leak Scanner: Flags any category taking > 20% of your monthly expenditure.
- Daily Allowance Calculation: Dynamically calculates how much you can spend per day to hit your goal.
- 1-Click Executive Diagnosis: Tap to generate a full executive health report of your finances.

6. COMMON QUESTIONS & QUICK CHEAT SHEET

Q: How do I fund my Bank account for the first time?

Tap "+ Deposit" on the Bank Card on the home dashboard. Type your starting balance and tap Done.

Q: What happens when I withdraw cash from an ATM?

Use Cash Tab -> ATM Refill. Finmech subtracts from Bank and adds physical Rs 500 notes to Cash.

Q: What if I made a mistake or want to delete a transaction?

Tap the transaction in Recent Movements. You can edit the amount, change account, or tap Delete.

Q: What if I want to wipe everything and start completely fresh?

Click your profile avatar in the top navbar -> click "Clear Every Data & Fresh Reset".
